

For corner / near-edge printers

The AG2 is a multi-purpose wax/resin product and is Toshiba's most popular ribbon type for near edge printers. Its highly versatile performance fulfills the needs of most standard applications. It lays down a clear and sharp printed image on most label stocks, from uncoated and glossy papers to synthetics. Withstanding heat up to 100°C (212°F) with a blackness of 1.6(ODR) the AG2 will give good levels of mechanical resistance and, as with all Toshiba ribbon products, its superior back coating will prevent static build-up and clogging, and offer the very best in printhead protection.

Toshiba AG2 ribbons – high quality smearless printing.

Characteristics

Excellent material compatibility	Excellent for high speed printing
Clear sharpness of 90° barcodes	Very good smudge resistance and blackness

Specifications (Performances expressed in this sheet are for the black ribbon)

Ink	Type	Wax/Resin
	Melting point	80°C (176°F)
Carrier	Film thickness	<9µm (0.354mil)
	PET thickness	4.5µm (0.177mil)
	Tensile strength	>300 N/mm ² (MD) (43,512 PSI)
Back Coating	Silicone product based	Friction coefficient Kd <0.2
Colors	● Black, ● Yellow, ● Magenta, ● Cyan, ● Blue (Reflex blue C), ● Red (1788 C), ● Green (Green C), ● Brown (484 C)	

Ribbon is anti static build up treated. Storage: 12 months, 5-35°C (41-95 F).20-80%Humidity

Certifications and Approvals (For other standards, please contact us)

LFGB	Food contact (Europe)		UL/CSA Legibility and durability of the printed label.
	1935/2004/EC		
Heavy metals	EC 98/638.		
Ames test	The ribbon is not mutagenic, does not cause DNA modifications.		
TSCA	The ribbon does not contain any of the toxic substances mentioned in this list.		
California Proposition 65	The ribbon does not contain any of the chemicals mentioned in this list. (except for carbon black which as far as we know is present in every black TT ribbons).		
EC Directives	1999/45/EC and 2001/59/EC. The ribbon does not contain any substance classified as dangerous for health.		

Always Choose Toshiba Ribbons for Toshiba Printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.
